We are proud to offer various payment, funding and financing options.

Payment: Unless otherwise specified, payment is due within 7 days of signing the contract. Payment may be made by cash, cheque, debit, and most major credit cards. Payment plans are also available to meet most budgets. Financing charges apply to payment plans. Beyond the allotted time, interest will be charged at a rate of 1.5% per month (18% per annum), until the date payment is made in full unless other arrangements have been agreed upon. If you are prepaying for services or supplies, pre-authorized chequing is also available.

Financing: Our payment plans give you the option of making payments over time. We offer a competitive financing program, administration fees and interest rates.

Funding: For your convenience, we offer two funding options when prepaying services and supplies. When prepaying, you pay for the services and supplies today at current cost and the money will be used to pay for the services and supplies when they are delivered at the time of death.

Trust: You may pay money directly to us and we will place it in trust, where it will accrue interest until the contract is fulfilled (when services and supplies are delivered) or the contract is cancelled.

Insurance: You may purchase an insurance contract where the proceeds of the insurance contract will be used to pay for the services or supplies at the time they are delivered or the contract is cancelled.

Additional information about our payment, financing and funding options is available upon request.
